FLYING LETTERS

“Flying Letters” is a letter exchange project by which we can make new friends around Europe. On E-twinning portal we collaborate with new partners each year and prepare handmade letters.

Each month we write letters on a new topic that is defined in the project workplan for a different country. Thanks to this project we learn about the culture ,lifestyles and the habits of the European countries and share about ours.

In spite of the fact that classical letters are a bit slower than e-mails or any other social media websites , receiving something that is designed and written specially for you is marvellous.

WHY “LIVENGLISH” ?

IS IT POSSIBLE TO SPEAK ENGLISH FLUENTLY IN STATE SCHOOLS ?

NESLIHAN ÖZPINAR

Having a foreign language is something worth being busy with. As time goes , knowing another language has an increasing importance. Even we can say that knowing English is a necessity ,not a talent. But here comes the basic question ; how can we learn fluent English ? There are so many ways to learn English. You can read texts in English ,learn and write down new words, make exercises , study at a language course etc... However there are not many state schools aiming to teach fluent English.

The Project that we created to provide multiply dimension on learning English is called “Livenglish”. This project also means to live the language we have been learning. And this can be possible by trying to acquire the language , not learning the language.Because language is not a kind of lesson you only learn at school , it's the life itself. If you tend to treat it like a school subject , it won't be able to give you the fruits you need. Livenglish is surely the process of having English from the true tree. The more you study with the method “livenglish , the stronger you'll get.

Here is how it Works :

CELEBRATING THE DAY OF EUROPEAN LANGUAGES ON 26th SEPTEMBER

The Day of European Languages is celebrated to emphasize the importance of learning foreign languages. Although English is a world wide language, knowing only one foreign language is an ordinary quality nowadays. So we make activities and organisations to make the students notice all the languages spoken in Europe. Exhibitions, song and speech contests ,noticeboards, short films are a few of these activities.

THE LETTERS EXCHANGE PROJECT “FLYING LETTERS”

Having friends from Europe is an incredible way of learning English. The students have lots of peers from different countries and have the opportunity to know something about their cultures and lifestyles. Besides we are able to introduce our culture and tell about our lifestyles. Thanks to the age of technology ,the students have been getting closer with their penfriends.

USING WEB 2.0 TOOLS DURING LESSONS

With the ongoing technological developments , the usage of papers and coursebooks are waste of time. Therefore we adopt English classes to the usage of Web 2.0 tools. The most common ones we use are kahoot, tracks with audacity , canva ,emaze ,learning apps and movie making programmes . Besides being easy to use , they are also more effective and enjoyable. Our students listen to the native speakers and record their own voice by imitating it. Furthermore they make role plays and create videos in a real environment . Sometimes they introduce themselves and catch up with their friends

through videos. There is no need to prepare pages of performance works to get a high mark ,because the real performance is being able to speak English fluently and understanding what they hear easily.

FORTUNE COOKIES

Learning English has never been so tasty. While learning all forms of "Future Tense" , the students prepared various kinds of fortune cookies. First of all they wrote down their future goals and wishes on small pieces of papers , then they put the papers into or onto the cookies. Finally practising future tense while eating delicious cookies was incredible.

ENGLISH LANGUAGE CLUB

This is a community formed to practise English wherever you are. "livenglish" has no borders .Moreover it allows the students to use and live the language not only at school but any place you are in. Thanks to the language club whatsapp group students write messages in English and join the activities or events held by language club .

Language club members join various types of events to develop their skills in English. Creating a language classroom, preparing the school magazine in English, speech contests , cinema events are a few of theses activities you can take part. The only thing you should do is living English .

Let the waves lead you! Enjoy it !

WhatsApp

LANGUAGE CLASSROOM

This classroom is a bit different from others....

Students can easily make group-works on the round shaped, colorful tables. We can also listen to the English songs loudly and play games. All the activity photos are shown with the colorful frames. The "READ" themed bookcase is really fantastic. There are newspapers, magazines, stories, novels and dictionaries. On Wednesdays language classroom turns into a cafe. The students can listen to English songs and read English newspapers and magazines while they are drinking tea or coffee. By this way English is used in daily life and not limited with the classroom borders.

MOVIE DAYS

Watching movies is an enjoyable way of learning English. Our students watch a new movie each month. Afterwards they upload the movies on their USB flash drives in order to re-watch the movie with no subtitles. They really love the movie days. The movies are chosen carefully. Both the language they hear and the story of the movie should be effective and educative.

LISTENING TO SONGS IN ENGLISH

Songs are the most enjoyable way of learning English. Everybody loves music. No matter what kind of music you like, it's an effective way. Moreover you don't have to spend extra time for it. While walking or travelling, on the school bus or even during short breaks of studying, you can easily practise English. In "livenglish" system, the students listen to a new song each week.

COOPERATION WITH THE ALL STUDYING FIELDS

Language can not be considered as a subject apart from other studying fields. As it's the life itself, we should collaborate together. Especially with another language taught at our school. For this reason we usually make some works on any topic. Writing the 99 beautiful names of Allah in both Arabic and English is one of these works. Playing biology, history, maths or chemistry kahoot games in English makes the students not only practise English but also revise these subjects by having fun.

TRACK TEST ENGLISH PROFICIENCY TEST ONLINE

Track test is an English proficiency test online with the certificate for all individuals. All English levels (European Union CEFR) can join this test. In our school three levels of this test ; A1- A2 and B1 have completed. After each completed English level test , the students get a "Track Test CEFR English Exam Certificate" which they can attach their curriculum vitae (CV) to apply for any kind of programs including Erasmus internship.

AN OUTGOING FOR THE KTÜ SCHOOL OF FOREIGN LANGUAGES

Language Club members have visited the School of Foreign Languages and made some observations. They also visited the "Kids Zone" where small children were studying English.

SPEAKING PRACTISE AT CAFE LIVENGLISH

Language Club members have been speaking foreign languages at Cafe Livenglish. Only English , Arabic or any other foreign languages are allowed to be spoken , but the mother tongue-Turkish

Coming together and practising English is so nice.

“I LOVE STUDENTS DANCING WITH KNOWLEDGE”

INTERVIEW WITH OUR SCHOOL MANAGER HİLMİ MUTLU

Interviewers :

Esra KADAKAL

Muhammet Eren ÇAM

Eren Mert UZUN

Interviewer : Hello dear manager , thanks for welcoming us.

Hilmi MUTLU : Hello dear language club members , It's a great pleasure for me.

Interviewer : Let me ask our first question , Why have you chosen to be an educator ?

Hilmi MUTLU : Education is lifelong process. It starts from the family , even from the cradle. Whatever you choose , you have to face with education. I also think that each person is a kind of educator. Maybe in his family ,at home or at the street. And I am the one who really loves teaching. Moreover the best part of this process is seeing that the seeds you had dug , has grown up and given fruits. No matter I have faced various difficulties ,this gives me an incredible happiness. On the other hand I have to admit that today's teaching principle has turned into a way which focuses on "only teaching something" .There are many "CD teachers" who only give information. In my opinion teachers should touch the hearts , be role-model for their students, teach good mood and moral values.

If you ask me if I am more successful in teaching or managing , despite the fact that I believe that a devoted teacher who tries to do his best in every job can also be a good manager, I see myself more successful in managing the school. While as a teacher , you are together with about 30 students , as a director you can touch hundreds of people or masses.

Interviewer : We've learned that when you were a teacher , you made an exam of which all the options were A and the last option was B. Can you tell us why did you do such a thing?

Hilmi MUTLU : Oh ! This question really surprised me.Yes , I remember it. I did such a thing because I always want a student model who dances with the knowledge not with options

Interviewer : What do you think about foreign languages , do you have an interest ?

Hilmi MUTLU : Despite its name "foreign" , I think that it's a tool which makes people come closer. turns this huge world into a small town or village as in our Prophet Muhammed's (PBUH) saying "a language means a person ,two languages means two persons." Being able to live like two persons is an incredible happiness. English is a worldwide spoken language but I recommend you to learn both English and Arabic well as our country is like the leader or brother of Middle East countries and has a political responsibility.

Interviewer : Which languages can you speak ?

Hilmi MUTLU : I can say that I know the grammatical rules of Arabic at a high level and I can speak Arabic at a medium level. Besides Arabic I can speak Romaic. But of course everyday language of Romaic. And English I have a two years of experience in teaching English .

Interviewer : Really ?

Hilmi MUTLU : Yes ,it's true but I can't say I know English. Maybe with the help of our language club I can develop my English skills at least to be able to Express myself in Europe. Because when I go to Europe ,I feel like blind, deaf and dumb.

Interviewer : What do you think about the activities of the Language Club ? Do you have any advices ?

Hilmi MUTLU : Unfortunately ,in our country there is a crucial problem in learning and teaching English. Even though students have been studying English for years , they stil can't speak fluently. I believe , with the works of our language club ,we can change something in a better way. I think we can achieve this moreover I believe that this is our responsibility. Language club should set this idea as their vision. Our school Language club should show that language can be learnt and spoken in state schools. You should be a leading club like our school in our city. You should learn English not only by your coursebooks , but also by considering it the life itself. You have to believe in yourself first, then make other students believe that learning a language is a need in today's world.

Besides all these I dream of a living language classroom with the technological equipments , and a life which students speak foreign languages while drinking coffee in this place . A place in which languages except your native language are spoken by the time you enter . In short I wanna describe language club as a lively group of students who really aim to speak foreign languages.

Interviewer : Dear director ,you know that the lesson hours of English class is inadequate. We really suffer from this problem .Do you have any precautions for the next school year ?

Hilmi MUTLU : Yes , you're right but as a science and social sciences project high school we are not able to create a language department but there are some thoughts and plannings of the general directory of religion teaching about making it possible .

And what can we do in this situation ? You can choose English or Arabic as your optional classes. You can do this. I really want you to be doctors,lawyers,engineers or architectures who know English very well.

Interviewer : What are your strategical plans for the next 5 years ?

Hilmi MUTLU : After renovations and revolutions of the physical conditions of our school we are planning to be the most successful school with it's boarding school , laboratuaries, sports centre , library etc... all the required parts.

I have a dream ;

our school is going to be the pearl of Blaksea and the best of Turkey.

Interviewer : Great thanks for spending time and inspiring us.

Hilmi MUTLU : I thank you , Best wishes ! Take care !

TIME TO OVERCOME HANDICAPS IN LEARNING ENGLISH

Language is the method of human communication and in the world there are above 1.5 billion English speakers. It is the official language in a large number of countries. So we can say that it is the most commonly spoken language in the world, that's why we have the education of English in our country.

In Turkey students have English classes starting from 2nd grade to college. Although it is a long period the average of people who can speak English fluently is quite low. How can we turn this average into high? How should English education be? When we find an interesting way to teach students, they will pay attention. For example visually takes the biggest part of learning, that's why lessons should be enriched with images for a permanent memorization. English lessons should include English literature because language is something that can't be divided, also we can make better sentences with proverbs, idioms, word associations and so on. We should have drama classes once a week. This would be an entertaining and instructive way to improve our speaking skills. We should also have listening classes to hear pronunciations. We need to practise what we learned. If all students would have an international friends that would improve us practically plus there would be cultural interaction between us. To improve our writing skills we should assimilate keeping a journal.

In addition to all these , we should make a platform to share our ideas in English at schools. To make this come true we should choose one day of the week where we should gather in the conference hall with students of all grades. This day we should watch videos about motivation, success, happiness and videos that make us aware of the meaning of life. After watching them we should share our opinions with each other in English and videos should include English subtitles even sometimes they can be silent videos what matters is what we understand and how much we can express in English.

The last and and most important thing is we should make students realize the importance of learning the world's common language to provide high participation. By this way we will be able to acquire the language.

ONE OF THE BEST ARTICLES WRITTEN FOR THE CREATIVE WRITING CONTEST

AN EXTRAORDINARY STUDENT

MELDA KARA

“LET IT SLIDE !!!!”

She has been an extraordinary pupil at our school. She is an 11th grade student. Although she wants to be a genetic engineer, she is really good at foreign languages . She can speak English fluently like a native speaker.

This year, Melda has joined the contests about her English speaking and writing performance and she achieved a great success. After taking part in the final in İzmir , she has also been in the final in Ankara

INTERVIEWER : Hi Melda ! Today I want to ask you some questions which many other students really wonder about. First of all how long have you been learning English ?

MELDA : Since 2nd grade. Firstly I came across with English words at a game called “Sims” of which we had English version installed in our computer.

INTERVIEWER : What do you do to improve English?

MELDA : My motto is “let it slide”. Because I’ve already got it into my life. It’s like being hand in glove which you can see everywhere from my the language choice of my mobile phone to my music list. I think that’s the point. As long as you see it, hear it and pay attention to it, you learn English somehow.

I’ve friends with whom I often chat from different countries. I keep a journal plus and I watch foreign shows. Sometimes I write down essays and read articles in English. In addition to all these , I’m open to learn every single new word I see. To me ,looking up the meaning of the word in the dictionary isn’t enough , so I assimilate the meaning, that’s how I learn effectively. I do this by imagining the meaning and making sentences. Frankly ,I rarely look for the grammar. In my opinion it’s not the basic for speaking fluently. It’s about using and practising the language. The more you talk the more you get fluent.

INTERVIEWER : How can you describe your feelings about learning a language in a few words?

MELDA : Sometimes it makes me feel odd because whenever I think about something in Turkish. English version of it comes to my mind ,too. Furthermore the best part is that it takes only seconds to make sentences in English.

INTERVIEWER : Do you have future plans about practising English?

MELDA : English will always be within my life. It takes the biggest part of my future plans. I’ve been thinking about studying my master’s degree abroad and I want to spread my ideas on platforms just like TEDx. Also I want to travel all around the world. Therefore I need to know the worldwide language ; English.

INTERVIEWER : We wish you will reach all your future goals and have a good career and thank you, Melda

MELDA : You’re welcome. I thank you for giving me the chance to express my thoughts.

HAVE YOU KNOWN

WHO IS MALALA YOUSAFZAI ? Once there was a girl who loved school. Her name was Malala. Malala lived in peaceful valley in Pakistan. One day, a group of armed men called the Taliban took control of the valley. The frightened people with their guns. The Taliban forbade girls from going to school. Many people disagreed but they thought it would be safer to keep their girls at home. Malala thought this was unfair, and wrote about it online. She loved school very much so one day, she said on TV, " Education is power for women. The Taliban are closing girls 'schools because they don't want women to be powerful". A few days later, Malala got onto her school bus as usual. Suddenly, two Taliban men stopped the bus and shouted. "Which one of you is Malala?" When her friends looked at her, the men fired their guns, hitting her in the head. Malala was rushed to the hospital and she did not die. Thousands of children sent her get well cards, and she recovered faster than anyone could have imagined. "They thought bullets would silence us, but they failed," she said. "Let us pick up our books and our pens. They are our most powerful weapons. One child, one teacher, one book, and one pen can change the world. Malala is the youngest person ever to receive the Nobel Peace Prize.

WHO IS COCO CHANEL ? Once upon a time, in central France, there was a girl who lived in a convent, surrounded by nuns dressed in black and white. Her name was Gabrielle Chanel. In the convent, girls were taught how to sew, but they didn't have many colors to choose from. They used the same material as nuns did, so all their dolls were dressed in black and white, too! When she grew up, Gabrielle worked as a seamstress by day and a singer by night. The soldiers she sang for at the bar called her Coco, and the nickname would stick with her for the rest of her life. Coco dreamed of having her own shop in Paris. One day, a wealthy friend of hers lent her enough money to make her dream come true. Coco's clothes looked fabulous even if the cloth was plain. "Where did you buy that?" the chic Parisian ladies would ask her. " I made it myself," she'd say, "Come to my shop and I can make one for you, too. Business grew quickly and Coco soon repaid all the money to her friend. Her most successful design was her classic "little black dress." She transformed the color that had always been associated with funerals to something perfect for a glamorous evening out. The shape of many of the clothes we wear today was heavily influenced by Coco Chanel, the designer who started life making doll's clothes from scraps of nun's skirts.

WHO IS SONITA ALIZADEH? Sonita is an Afghan rapper. At young ages, her family forced her to marry. Sonita always rejected these marriages. Sonita wanted to write her own songs. She wrote a hard-hitting song called "Brides for Sale" and uploaded it on YouTube. The video went viral and Sonita became famous. She won a scholarship to study music in America. "In my country, a good girl should be silent." says Sonita, "but I want to share the words that are in my heart.
